

WHY WE ASK FOR YOUR SUPPORT

45th Annual Fire Prevention Dinner Dance
October 7, 2016

2016 is year 2 of our 5-year Freedom from Fire Campaign. Our goals are to continue to lower civilian fatalities to eventually hit Zero as well as to make firefighting safer; to reduce injuries, and save billions in fire damage by reducing the total number of fires.

We have developed a very aggressive and innovative five-year campaign to reduce fatalities, injuries and property damage from fire. We need your help to:

WORK SMARTER

We will introduce new technology to make firefighting safer and more focused on the families and communities most at risk

WORK HARDER

We will install 67,000 smoke alarms in more than 26,000 homes and educate 500,000 residents and employees in Philadelphia over the fire-year campaign

WORK BROADER

We will use technology to enable more firefighters to participate in education in a greater variety of languages and with a larger number of community partners

WORK FRIENDLIER

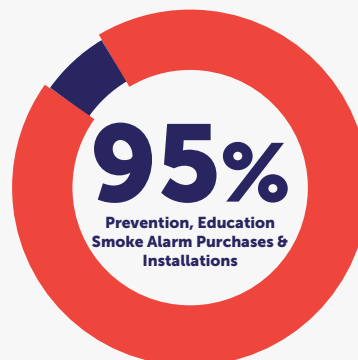

We will open local fire houses to neighboring communities for open houses and movie nights where residents can learn fire and life safety best practices and also watch a movie and get to know their friends in the Fire Department

WORK AS A TEAM

We are expanding our strategic partnerships to increase our Awareness Campaign ten-fold

Your contribution will go towards fire prevention education, the purchase and installation of ten-year lithium powered smoke alarms, making firefighting safer, and less than 5% towards administration and fundraising. Philadelphia Fire Department (PFD) salaries are paid by the City and the PFD does the smoke alarm installations and education.

Where Your Contributions Go!
